Air Filled Porosity	≥10%
Moisture	30-55%
* Analysed in a 1:1.5 water extraction	

## QUALITY STANDARD

We take great care to bring you premium product. Our products are created from recovered green waste and are compliant to The New Zealand Standard NZS 4454 for Composts, Soil Conditioners and Mulches. For more information about NZS 4454 visit:

» <http://www.wasteminz.org.nz/wp-content/uploads/Compost-NZ-a-toolkit-for-NZ-4454-PDF-FINAL.pdf>

## HANDLING PROCEDURE

When handling larger volumes of Garden Mix, ensure stockpiles are covered to give protection against weather conditions and windblown weed seeds. Do not drive over stockpiles this will compact the mix. Do not mix with soil - this will destroy the weed-free

properties.

## INGREDIENTS

- » Living Earth Compost
- » Bark Fines
- » Pumice
- » Fertiliser

## FREIGHTING & APPLYING

A truck and trailer will carry approximately 40m<sup>3</sup>. Suitable for blowing. Apply 150mm to 300mm over existing soil, or fill raised planter beds. Lightly compact by hand. Mulch top with Living Earth's More than Mulch to finish.

## RECOMMENDED USE

Apply directly on top of existing soil or into raised garden beds. Directly plant into Garden mix. Ideal planting mix for shrubs, flowers, veggies, etc. Essential for healthy plant growth
