

LIVING EARTH LANDSCAPER'S COMPOST

An excellent compost for soil conditioning or amendment in large landscaping projects. Landscaper's Compost is specified and used for re-vegetation work, parks & recreational facility refurbishments and large amenity areas. It revives and conditions the existing soil to assist in healthy new vegetation growth.

QUALITY STANDARD

We take great care to bring you premium product. Our products are created from recovered green waste and are compliant to The New Zealand Standard NZS 4454 for Composts, Soil Conditioners and Mulches. For more information about NZS 4454 visit:

» <http://www.wasteminz.org.nz/wp-content/uploads/Compost-NZ-a-toolkit-for-NZ-4454-PDF-FINAL.pdf>

HANDLING PROCEDURE

When handling larger volumes of compost, ensure stockpiles are covered to give protection against weather conditions and windblown weed seeds. Do not plant directly into compost. It **MUST** be mixed with existing soil.

INGREDIENTS

- » Living Earth Compost
- » Aged Compost & Media

FREIGHTING & APPLYING

A truck & trailer will carry approximately 45-50m³. Product excellent for blowing. Apply a 50mm layer to the gardens and incorporate into the top layer of soil. Lightly compact the surface.

SALES

RECOMMENDED USE

Use as a soil conditioner. Dig into existing soil to increase the soil's ability to retain moisture and nourish plants. Encourages worm activity.
