

# ULTRA LAWN

This fancy pants new product is a unique blend of our certified organic Living Earth Compost mixed with the finest fine bark, the sandiest sand.

Developed by lawn professionals for lawn contractors and home gardeners, this is a great lawn establishment mix with excellent structure and drainage. It's been screened for consistency and ease of use.

Living Earth Ultra Lawn is available exclusively through Central Landscape & Garden Supplies.

## PRODUCT SPECIFICATIONS

pH	6.0 - 7.0
Conductivity (mS cm <sup>-1</sup> )*	≤ 2.5
Germination score (out of 7)	≥ 6
Particle Size	95% passing 10mm sieve
Air Filled Porosity	≥ 5%
Moisture	30% to 40%
Bulk density -wet wt basis (kg per m <sup>-3</sup> )	700 - 800
* Analysed in a 1:1.5 water extraction	

## HANDLING PROCEDURE

When handling larger volumes of Ultra Lawn, ensure stockpiles are covered to give protection against weather conditions and wind blown weed seeds. We know it's tempting, but try not to drive over stockpiles - it will compact the mix. Do not mix with soil - this will destroy the weed-free properties!

## RECOMMENDED USE

Ideal for lawn repair. Use to establish new lawns.

## INGREDIENTS

- ✓ Living Earth Organic Compost
- ✓ Bark Fines
- ✓ Sand

COMPOST BASED

REVIVES SOIL

## APPLICATION

For new lawns, apply Ultra Lawn to a depth of 30-50mm. Sow seed at the recommended rate and water thoroughly. For renovating existing lawns, apply Ultra Lawn to a depth of 20-30mm and sow seed, watering thoroughly.
